# SPREADING JOY: CHRISTMAS CELEBRATIONS AT THE ANUGRAHA PROJECT TAP

The festive spirit of Christmas brought joy and warmth to our community as we celebrated with a series of meaningful and engaging activities.

## A SPECIAL CELEBRATION FOR TODDLERS

Christmas celebrations at our container space in Banyan Tree Park were extra special this year. Our interns took the lead in organizing a delightful event for toddlers, including children from the neighboring community. The little ones enjoyed a day filled with games, music, and treats, fostering a spirit of inclusivity and togetherness.

## A DAY OF ART AND CREATIVITY

In a heart-warming gesture, a newly married young couple spent a day at TAP, engaging with our children in an artistic activity. They introduced block printing on tote bags, allowing the children to explore their creativity while learning a new skill. The session was filled with laughter, vibrant colors, and a sense of accomplishment as each child proudly showcased their designs.

## SUSTAINABLE LIVING: COMPOSTING AWARENESS DRIVE

Vasuki Iyengar and his team members, conducted an interactive session on composting. They installed two different types of DIY composting units and spent time educating the community about the importance of composting, the impact of waste segregation, and the harmful effects of using non-biodegradable materials like plastic and paper cups. This initiative not only encouraged sustainable waste management but also empowered the community with practical, eco-friendly solutions.

## IMPROVED HYGIENE: NEW HAND WASH TROUGHS INSTALLED

In collaboration with Rotary Bangalore, we made a significant improvement in community hygiene. Four new hand wash troughs were built outside the newly constructed toilets, with two of them designed at a lower height to be accessible for young children. This initiative ensures that proper handwashing habits are encouraged among all age groups, promoting better health and sanitation practices.

## WELCOMING OUR FIRST BATCH OF INTERNS

December marked a milestone for TAP as we welcomed our first batch of college student interns. These young minds brought enthusiasm and dedication, contributing in various ways. One of their key projects involved going door to door within the community to collect vital information that will help shape our future initiatives and bring further improvements to our programs. Their efforts have laid the foundation for data-driven decision-making and a deeper understanding of community needs.

AS WE LOOK BACK ON THESE MEANINGFUL ACTIVITIES, WE EXTEND OUR HEARTFELT GRATITUDE TO EVERYONE WHO CONTRIBUTED TO MAKING THIS SEASON ONE OF JOY, LEARNING, AND POSITIVE CHANGE. HERE'S TO MORE IMPACTFUL INITIATIVES IN THE COMING YEAR!
